3.5 HOURS

Chess started in India over 1,500 years ago as “Chaturanga”. It has become a classic test of intelligence. This event is all about metamorphosis, which is part of this very game, known for changing all the time. There are more possible chess positions than stars in the observable universe. Now, will your stars align as you rise to the challenge and transform your game?

CHESS—RULES OF PROCEDURE

- All FIDE rules and regulations will be followed. Participants are required to be aware of and follow these rules for the smooth running of the event.
- Time control will be “Blitz”, that is, 3 minutes per participant with a 2-second increment after each move.
- A knockout format will be followed.
- Movement of pieces is in standard chess formats.
- A toss will be held before each game by the Event Head or arbiter.
- The arbiter's decisions will be final.
- For the semi-finals, the time control will be 5 minutes per person with NO increments.
- For the finals and third-place match, time control will be 10 minutes per person and NO increment.
- All participants are required to carry their own chessboards and pieces.
