

GRADES 9 – 12

**3 PARTICIPANTS
PER TEAM**

4 HOURS

Fortuna, Perseverantia's own version of Dalal Street, is a high-intensity stock market simulation that transforms students into investors and traders. Inspired by our theme, Metamorphosis, the market is constantly evolving. Fortunes rise, companies collapse and every decision has the power to alter the course of the market. In a world driven by risk, instinct and strategy, participants must adapt faster than the market itself. Only the smartest and most calculating investors will emerge victorious when the closing bell rings.

FORTUNA—RULES OF PROCEDURE

Each team must fill the following positions:

- 1 Trader
- 1 Analyst
- 1 Floor Representative

The event will be conducted in four rounds, each lasting 50 minutes. Every round will consist of the following phases:

1. Market News & Analysis - 10 minutes

Participants will be presented with key market updates through a live presentation. These may include economic developments, sector-based changes and company-specific announcements. Teams are expected to interpret the information and plan their trading strategies accordingly.

2. Pre-Market Session - 10 minutes

Prior to the commencement of live trading, a designated pre-market window will be provided during which teams may engage in off-market negotiations. Any mutually agreed transactions must be recorded on official investor slips and submitted at the designated desk by the Floor Representative of the respective teams within the allotted time. All such transactions must be duly signed by both parties and will be processed before the start of live trading. No investor slips will be accepted once the trading phase begins.

3. Open Trading - 25 minutes

Participants will engage in live trading using the provided digital platform. All teams will begin with an equal amount of virtual capital. Teams may buy or sell stocks based on their expectations of market movement. Stock prices are subject to change dynamically based on market conditions and other influencing factors during the event. This will require participants to think quickly and adapt their strategies in real time.

FORTUNA—RULES OF PROCEDURE

4.Portfolio Freeze & Review - 5 minutes

At the end of each round, trading will be paused and all portfolios will be recorded. This ensures a clear and fair transition into the next round.

NOTE

- Additional elements may be introduced during the event. Relevant instructions will be communicated clearly to all participants at the time.
- Participants may receive additional market cues or information during the event, which they may interpret and utilise at their discretion.

GENERAL RULES

- Each team must carry one laptop for accessing the trading platform. WiFi access will not be provided. Participants must carry their own dongle or use their mobile data.
- All trades must be completed within the designated trading period.
- Participants are expected to adhere to fair play. Any attempt to exploit technical loopholes or manipulate the system unfairly will result in immediate disqualification.
- The organisers' decisions regarding market behaviour, price movements and event proceedings will be final.

Dress Code

- All participants must be dressed in formal attire.
- Jeans are not permitted.
- Footwear must be formal.

Judging Criteria

1. Final Portfolio Value
2. Risk Management and Diversification
3. Strategy and Negotiation
4. Overall Participation and Engagemeont
